32   </center>
33   <script src="jsCH5.js"></script>
34 </body>
35 </html>
```

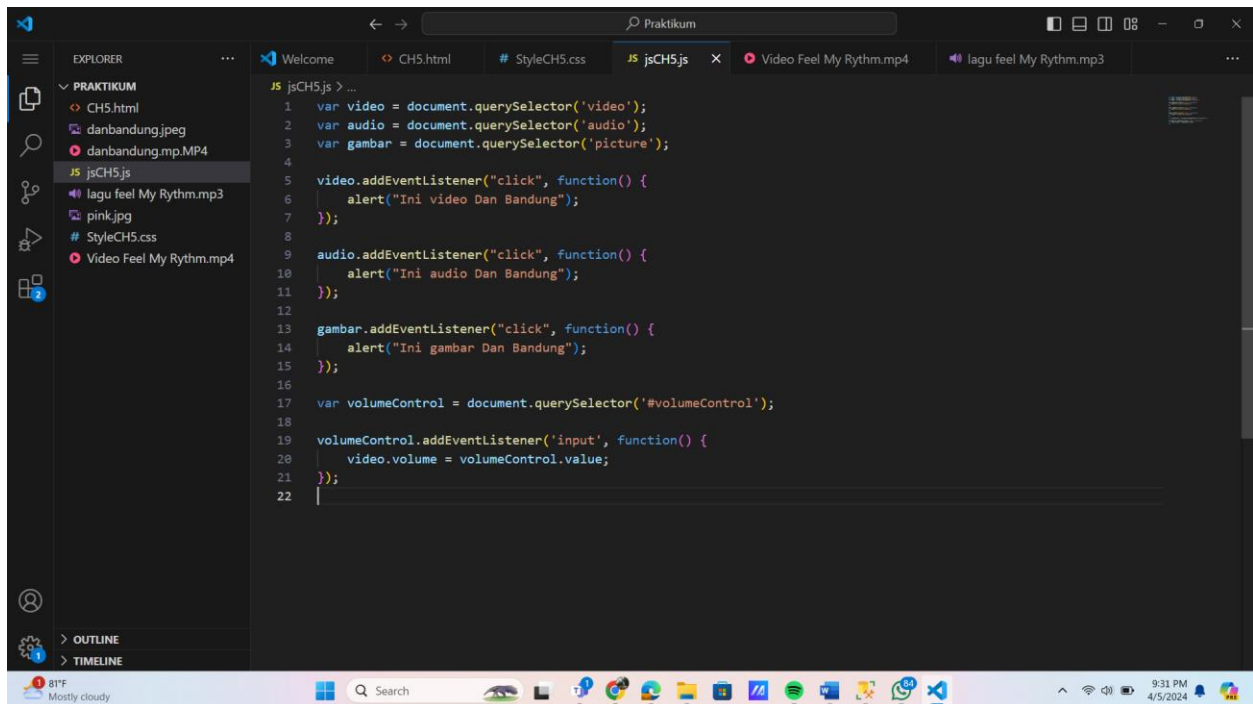

The screenshot shows the Visual Studio Code editor with the file explorer on the left displaying a project named 'PRAKTIKUM'. The file explorer lists several files: CH5.html, danbandung.jpeg, danbandung.mp4, jsCH5.js, lagu feel My Rythm.mp3, pink.jpg, # StyleCH5.css (selected), and Video Feel My Rythm.mp4. The main editor area displays the content of 'StyleCH5.css'. The code defines styles for the body, h1, and h2 elements. The body has a pink background. The h1 has a cursive font 'Great Vibes' and is centered. The h2 has a cursive font 'Lobster Two', is centered, and has a complex border and background.

```
# StyleCH5.css
body {
  background-color: pink;
}

h1 {
  font-family: 'Great Vibes', cursive;
  text-align: center;
}

h2 {
  font-family: 'Lobster Two', cursive;
  letter-spacing: 1px;
  text-transform: uppercase;
  text-align: center;
  border: 2px solid snow;
  background: pink;
  color: beige;
  box-shadow: 1px 1px 2px blanchedalmond;
  border-radius: 10px;
  padding: 3px 10px;
  cursor: pointer;
}
```

The screenshot shows the Visual Studio Code editor with the file explorer on the left displaying the same project. The main editor area displays the content of 'jsCH5.js'. The code uses JavaScript to select video, audio, and image elements and add click event listeners to each, which trigger alert messages. It also includes a volume control slider that updates the video volume.

```
jsCH5.js
1 var video = document.querySelector('video');
2 var audio = document.querySelector('audio');
3 var gambar = document.querySelector('picture');
4
5 video.addEventListener('click', function() {
6   alert("Ini video Dan Bandung");
7 });
8
9 audio.addEventListener('click', function() {
10  alert("Ini audio Dan Bandung");
11 });
12
13 gambar.addEventListener('click', function() {
14  alert("Ini gambar Dan Bandung");
15 });
16
17 var volumeControl = document.querySelector('#volumeControl');
18
19 volumeControl.addEventListener('input', function() {
20   video.volume = volumeControl.value;
21 });
22
```
